Office and Foundry, Main st., West Canal 245-1y

THE Earth Closet Company

JOHN HOSKIN, General Agent for Ohio, Western Pennsylvania, &c.

Patent Dry Earth Commodes in Walnut or Ash Cases.

Patent Dry Earth Apparatus for Fixed Closets or Privies, either Pull-up or Self-acting.

The Dry Earth Closet is a successful substitute for the water closet, being cheaper, less liable to get out of order, and positively free from odor. Suitable for dwelling house, sick chamber, merchants' offices, factories, schools, railroad depots, hospitals, prison cells, &c., &c. Call and see them at the Massillon Excelsior Works. 343-1y

Agents wanted in every town

Those who anticipate building can find Doors, Sash, Blinds, Paints, Oils, Locks, Hinges, and other necessary articles at Kelley & Brown's, Erie street, Massillon, Ohio.

T. R. Richmond,

Dealer in Pine Lumber, Shingles, Lath, dressed Flooring and Siding, Bill Lumber wide and common, Barn Boards, Fencing, Box and Second Pine, which will be disposed of on very reasonable terms. Lumber Yard on Erie st., opposite Tremont House, Massillon, where I will be glad to wait on customers who desire anything in the lumber line.

A. HARSH,

WHOLESALE DEALER IN

Notions and Fancy Goods,

AND MANUFACTURER OF

Umbrellas and Parasols,

Corner Main and Factory sts, Massillon, O

Repairing promptly done.

E. D. DOYSEE,

COAL DEALER.

Office West Side Canal Near Gas Works.

Thankful for former liberal patronage would respectfully solicit a continuance of the same. Confident that he can give satisfaction as he delivers none but

CLEAN COAL

from the best mines, at greatly reduced rates

TERMS:—POSITIVELY CASH.

INDEPENDENT.

MASSILLON NEWSPAPER SKETCHES

MR. EDITOR—In a very poor effort to fulfill a promise to furnish a history of the newspaper press of this city, I beg to hand you the following, prepared wholly from memory, and which of course is imperfect. It will serve to awaken reminiscences that will be furnished by others, and which will supply any hiatus in my recollection of the events I am trying to narrate.

In 1830, when the writer was a boy of eighteen, Capt. James Allen, a practical printer, who had learned his trade with the late Hon. John Saxton, whose memory as a Christian gentleman will be ever cherished by all who knew him, came to Massillon with a press, a well worn Ramage, more thoroughly worn types and cases, which had formed the property of the Ohio Democrat, a weekly which had been doing yeoman service for the democracy at Paris, in Paris township, in this county, under the auspices, as editor, printer and publisher, of the late Joseph Wilkinson White, who, during his career as a printer started more newspapers than any man in his day, or who is now living, unless it be Sam Pike, and issued the first newspaper ever published in this county west of Canton, the Massillon Gazette.

The Democrat did not live long at Paris. It was removed to Canton, and as stated, in 1830 was brought to Massillon, and Capt. Allen and Dr. John Townsend were editors of the newspaper, Allen being the printer, and really the editor, as Townsend, had he not given all his time to his practice as a physician, was too indolent to write an article of greater capacity than a stick full.

Gen. Jackson was president. The whigs were getting a little hold on the paper toward the close of the first volume, and Capt. Allen wanting material aid, and being able to get it from Alexander McCully, Esq., then a prominent democratic leader, turned the paper over into the hands of the democrats, and it became a violent partisan paper. Mr. McCully was no mean writer, and he put into the office a practical printer by the name of Henry Bernard, a most rapid and correct compositor, who had really the charge of the office after its new birth. In 1831 Capt. Allen was elected a representative in the state legislature with the late Hon. John Harris, which dissolved his connection with the paper, and the new firm was Bernard & McCulley, Mr. McCully being postmaster. The enterprise was not profitable, and the whigs believing that they could run a newspaper purchased the concern, and put a man into it by the name of Samuel R. Jones, who made a sad failure and left the paper on the hands of his securities, among whom was a brother of the writer, who contributed $600 to get out of the concern. The name of the paper was changed to that of the Massillon Whig, and the late Hon. Samuel Pease undertook the charge of editing it. Capt. Milo Smith, who died of cholera in 1834, a fine printer, being the publisher, it lived a sickly life and died very dead.

At some period between 1831 and 1836, a democratic paper was started here, called the Massillon Journal, the ubiquitous Joseph Wilkinson White being the proprietor, and who put his son, J. Washington White, in charge as publisher, and a wandering Dr. Morse as editor; and it may be safely said that for a violent, unscrupulous partisan paper it was without a parallel. It, too, died, and the property of the office went somewhere on the Western Reserve, as now remembered, to Chardon, in Geauga county.

In 1836, Hon. James Wilson, of Steubenville, came here, and finding the material for a newspaper office lying around loose, he purchased it, added to it, and among other things new presses, and started a new paper under the old familiar name of the Gazette. This paper was about the size of the Rep and Rep of Canton. Judge Wilson established his son, Robert C. Wilson, in the business, This, too, was a failure. The size of the paper was reduced to moderate limits, and it passed into the hands of Luce & Worstell, then into the hands of Underhill & Luce, which brings us down to 1840. In 1841-2 there was issued from the same office, The Genius of Temperance, of which the writer hereof was the editor. He run the little machine about six months, working for nothing, and passed it over to his schoolmate, the late Geo. Miller, in whose hands it quietly went to sleep.

The Gazette ran along under the management of Luce & Worstell for a season, when it changed proprietors, and in the dimness of waning memory it is believed that John Hanna, of Circleville, got hold of it and called it the Herald. He had charge of the paper but a short time, when, if the memory of your correspondent can be trusted, it passed into the hands of E. P. Grant, Esq., from him to Dr. Bowen, from him to Painter & Wilson, who changed the name to the Telegraph.

Meanwhile, F. M. Keith and George Miller, now of White Cloud, Kansas, started a paper called the Massillon News, which was afterwards merged into the Telegraph. Painter & Wilson sold out the concern to Earl & Underhill. Underhill left the concern, selling out to W. C. Earl, Esq., he sold it to Logan & Fletcher, Logan & Fletcher to C. A. Hugus, C. A. Hugus to J. E. Wharton, J E. Wharton to Huntsman & Merwin, J. K. Merwin succeeded them. Then came a blank when Massillon had no paper up to 1861 or 1862, when the Harkins Bros. rented the office from Mr. Earl; and who followed them you can tell better than anybody else.

As time has rolled his ceaseless course during the forty-one years which it has taken to furnish material for the above sketch, other newspapers have been started here, among which the veteran White started a huge paper called the Wheat City Mercury. It ran through two or three months and then went out.

In 1848, the writer with E. Burke Fisher started the Wilmot Proviso. It begun and ended with the campaign of that year which elected Gen. Taylor. Without disparaging the ability of the many who have had the management of the newspaper press in this city, James Allen and Edmund Burke Fisher cannot be mentioned without profound respect for their ability as writers and their native kindness. The former died at Washoe City, Nevada, and the latter at South Bend, Indiana As journalists they were competent to fill any position, as those who knew them as did the writer, will bear witness. Between Capt. Allen and your correspondent there existed an unbroken friendship for thirty five years, over the memory of which no shadow will ever pass.

The first prospectus issued for a newspaper in Massillon, was one written and issued by the late Hon. G. W. Belden, who was a practical printer and who had learned the art with Bowen & Mason of the Portage O. Journal, a paper published in Middlebury, Portage Co., now Summit, in 1826; and a few of the following years. The paper was to have been called the Ohio Sentinel. The young Mr. Belden, as he then was, had also studied medicine and had thought of entering into the practice somewhere in the Tuscarawas Valley. He was dissuaded from that determination and turned his attention to the law, in which he was eminently successful. One of his old teachers of the art of printing still lives at Marion, Ohio, the Hon. Ozias Bowen, a lawyer of eminence, and who has served as a common pleas judge. Mr. Mason above referred to is dead.

R. H. FOLGER.

☞Our readers cannot but peruse with some degree of interest the foregoing sketch of newspaper history in this place, furnished by our friend, R. H. Folger, Esq. Favored with a memory of remarkable tenacity, and having lived here more than fifty years, much of the time having more or less connection with the press, we know of no gentleman better qualified than Mr. F. to perform a task so welcome to our community and so timely for our present emergency. Having presented a sketch of the ups and downs of the newspaper efforts here, commencing in 1830, and running through two-fifths of a century, the writer leaves the rest for me to relate. Although many changes have been brought about in our city during the last eventful decade, the history of the press here can be related in a few words. The INDEPENDENT, as was stated last week, began its career in July, 1863, by the present publishers, following an interval of more than six months during which dark era no weekly paper was issued here. In October, 1860, J. W. Garrison commenced the *Massillon American*. He continued his connection with it till some time in the following June or July, when Messrs. McCurdy & Gieseman of Shippensburg, Pa., assumed control. After about five or six months the last named publishers withdrew and Messrs. Hoover & Son of Hollidaysburg, Pa., took charge of it, and are its present publishers—which brings us down to July, A. D. 1871. Who will be the recording angel ten years hence of newspaperdom here—cannot now be prophesied.

It may properly be noted in this connection, for Mr. Folger's attention was not called to any-thing aside from the narration of newspaper efforts, that Mr. Canfield, now one of the proprietors of the Akron *Beacon*, about fourteen or fifteen years ago, had a job office here for a brief period. Nearly ten years ago the Shakers brothers commenced a small monthly in town called the *Review*, a literary paper, very creditably conducted, which was issued until within a few months—at least we have not seen it of late.

This brings the chronicles of our craft in this city up to date, as far we can make it out.

Hold on to your tongue when you are about just ready to swear, lie or speak harshly, or use an improper word.

Hold on to your hand when you are are going to strike, pinch, steal or do an improper act.

Hold on to your temper when you are angry, excited or imposed upon, or others are angry about you.

Hold on to your good name at all times for it is of more value to you than gold, high places or fashionable attire.

Hold on to your heart when evil associates seek your company, and invite you to join in their mirth and revelry.

Hold on to the truth, for it will serve you well, and do you good throughout eternity.

Hold on to your virtue—it is above all.

FALLING STARS.

The phenomenon of shooting or falling stars is one of the most startling and interesting of all the spectacles that the heavens afford. We have a sort of natural opinion that stars should be stationary, and not given to visible movement; and when we see a bright point of light shooting its way across the firmament, with a pale light train behind it, it gives us the impression that a star has left its moorings and plunged off on a career of discovery. Generally, these meteoric movements have the appearance of shooting stars; but, really, they seem to be falling stars, and then the phenomenon is awful as well as beautiful. The periodic return of the exhibition, on a grand scale, once in thirty three or thirty four years, has led to the working out of the present accepted theory of its cause. It is believed that, in addition to a comparatively few of these shooting stars scattered through space, and revolving round the sun, there is a great belt of them, across, or near to whose orbit the sun passes about once in thirty three years. It crossed this meteoric orbit in 1833, and again in 1866. These stars are miniature planets—possibly the fragments of larger bodies shattered to atoms by some great collision. They are continually revolving around the sun, at an immense distance from it, but when the earth approaches near enough to overcome the sun's attraction with its own, the meteors are drawn out of their course and made to fall to the earth. They are, in this manner, continually falling to or towards the earth, by day as well as by night, though of course, they are invisible during the day. No less than four thousand five hundred aerolites are, by Reichenbach, estimated to fall to our earth every twenty four hours, three fourths of them descending into the ocean. These are of every size, from the weight less than an ounce to bodies of fifteen tons. Of visible shooting stars, a little over seven and a half million fall into our atmosphere every day. But the invisible stars, discovered only by the telescope, that fall daily to our earth, and are henceforth swallowed up and incorporated in it, are computed at the enormous number of four hundred millions. Colbert calculates the annual increase of the earth by starry matter falling into it to be one hundred and eighty tons, and he says the planet Mercury is increased yearly about 600 tons of similar matter. It is claimed that the bulk of Mercury is considerably increased thereby so as to retard his motion. The earth, too, must also be slightly enlarged in size, as the figures would show an increase of more than a million tons in six thousand years. These are rather startling estimates, but are the results of careful scientific investigation. Why this incessant bombardment of our planet from celestial batteries does not result in a larger loss of life is the most natural question that arises to our minds. Its answer involves a beautiful theory and reveals a sublime view of the wisdom of the Creator. These meteors, or planetoids, or shooting stars are not originally luminous bodies; they are small opaque masses which would be indistinguishable but for the ignition they undergo, on coming in contact with our atmosphere. It has been ascertained that a solid body moving through the air at a velocity of thirty miles a second would, by the friction, evolve heat equal to two and a half million degrees, Fahrenheit. This is a hundred times swifter than a cannon ball, and two hundred times hotter than a red hot iron. As the earth is moving through space at the rate of nineteen miles a second, and the falling stars are flying towards it with an equal and probably a superior velocity the rush of speed with which the two come together is inconceivably great. A white heat is instantly enveloped in the meteor, and it assumes an intense brightness. Thus its headlong haste proves its own destruction, but it insures man's salvation. It takes fire on coming in contact with our atmosphere, and is burned up before it reaches the earth. The aerial cushion that envelopes our earth to the height of four or five hundred miles from its surface serves as a cuirass to shield it against the attacks of these celestial missiles, which, but for it would be constantly raining down upon the abode of man, causing havoc and dismay everywhere, and making life on earth a perpetual peril. A few of these planetoids do, however, reach the earth, and give us an opportunity to examine them. There is in Yale College a specimen of meteoric iron that weighs sixteen hundred pounds; there is in the Imperial Museum at St. Petersburg an aerolite about the same size and weight; one fell in Tennessee, three years ago, whose weight is estimated at six tons; it buried itself in the earth to the depth of sixteen feet. On the plains of Buenos Ayres there is one that is supposed to weigh fifteen tons. One of the tremendous size of six hundred thousand tons, passed over Europe, at the distance of twenty five miles from the earth. A body of similar size passed over the eastern portion of the United States in 1860. Over two thousand stones smoking with heat fell to the earth, out of the air, in Normandy, France, in the year 1803. In the summer of 1858 an immense bolide, or meteor, was seen over the city of Warsaw in Poland, at a supposed distance, of four hundred miles overhead, and appearing at that great distance, to be as large as the moon at full. It was estimated to have a surface two thousand acres in extent. It exploded, and its fragments were scattered over the earth in every direction. The detonation, though occurring at so great a distance, caused a shock like an earthquake. Had it fallen to the earth whole, the concussion would have been terrific.

It has been observed that of late that the meteors that fall to or toward the earth, are of larger size than formerally; and it is imagined that our planet is encountering heavier metal from this bombardment, and that it may some time or other meet discharges that will jar it to the foundation.

THE ORIGIN OF THE ELECTRIC TELEGRAPH.

In 1831 and part of 1832, the writer, then studying in the schools of the world renowned Paris, had his lodging in the modest upper chamber of the unpretending Hotel de Calcutta, in the Rue de Savoy, near the famous old Point Neuf, and on the students' side of the Seine, in the "Pays Latin." At the same time there lived in the same hotel another young compatriot, also engaged in the prosecution of his studies. His calling led him into very different places from those frequented by the writer, but on Sunday and holidays a visit to the Louvre often found the latter standing, in rapt admiration, before an immense canvas, reached by a stage eight or ten feet in height, upon which the former was daily engaged in copying the great picture of the "Shipwreck," which at that day, graced (and perhaps still graces) the wall of the first room of the grand gallery of the Louvre. Time passed on, and as the picture advanced toward completion, and the artist grew in reputation, his friends augured most favorably for the future fame of one whose first finished piece produced him (rumor said) the handsome sum of one thousand dollars.

In the summer of 1832, this artist was on his way home in one of the fine ships in the Havre and New York line. Steam did not in those days, puff the traveler across the grand Atlantic in seven or eight days, and adverse winds not unfrequently protracted the voyage far beyond the endurance of impatient absentees, longing for home, for fame and fortune. The voyage on this occasion was unusually long. The passengers had used every ordinary resource by which they might hope to subtract an hour or two from the tedious time. All had been employed and all had been exhausted, and all had failed.

At last a fellow passenger, whose studies had also been going on in that grand old omnibus, Paris, and who like the painter, was returning home with head and heart both filled, like his, with hopes of greatness, and the the means of achieving it; and whose career had been hardly less successful, brought on deck his scientific apparatus, and proposed to lop off an hour or two from the tedious time by exhibiting experiments. Electricity and galvanism contributed their quota In one of these experiments the effect produced was seen at considerable distance from the instrument that was working. An Englishman, who was carelessly looking on, remarked, "what a pity we can't send messges as quick as that."

The remark seemed to pass like the spark that occasioned it, for no further reference was made to it, but it was seed fallen on good ground, and in due time it sprang up and bore fruit a million fold.

Arrived at New York the passengers separated; but nothing was heard of the ambitious painter, whose copy of the shipwreck had spread his fame ahead of him.

The old rope walk that stood on or near the spot on which the distributing reservoir of the Croton water now is, was hired by some unknown person, who was engaged in some unknown experiments which did not seem to give much promise of useful result, since month after month and year after year passed by, and still the mysterious workman was as dark and mysterious as ever, and his barred doors still defied the curiosity of the curious, till at last the mystery itself ceased to attract notice.

Ten years passed thus, and at the end of that time Morse emerged from his rope walk with his Telegraph accomplished, and electrified the world.

WHAT WILL HE BECOME.

This question is often asked by parents in regard to their sons, and by the friends of many young men. And although there is no definite rule for ascertaining, we may get some idea of what a young man will become by observing his actions and works. Solomon said, many centuries ago, that 'even a child is known by its works, whether it be evil.' Therefore, when you see a boy slow to go to school, indifferent about learning, and glad of every opportunity to neglect his lessons, you may take it for granted that he will be a blockhead.

When you see a boy anxious to spend money, and who spends every cent as he gets it, you may know that he will be a spendthrift.

When you see a boy hoarding up his pennies and unwilling to part with them to any good purpose, you may set it down that he will be a miser.

When you see a boy willing to taste strong drink, you may rightly suppose that he will be a drunkard.

When you see a boy is disrespectful to his parents, disobedient to his teacher, and unkind to his friends and playmates, it is a sign that he will never be of much account.

When you see a boy looking out for himself and unwilling to share good things with others, it is a sign that he will grow a selfish man.

When you hear a boy use profane language, you may take it for a sign that he will become a wicked and profligate man.

When you see boys rude to each other you may know they will become disagreeable men.

But when you see boys that are kind and obliging to each other, obedient and respectful to their parents, attentive to their studies and duties, it is a good sign that they will become useful men.

When you see a boy that loves his Bible, and is well acquainted with it it is a sign of future blessing from Almighty God.

When you see a boy that stays away from theatres, grog shops, ball rooms and gambling dens, it is sign he will grow up a man in principle, knowledge and goodness.

When you see a boy practicing the virtues of morality and Christianity you may know that he will become an honor to himself and family, useful to his country, and a glory to his manhood.

Although great changes sometimes take place in the character, these signs as a general rule, holds good.

THE FIRST STEAMBOAT

At a special meeting of the Oldest Inhabitants Association held in Washington city on Monday, the following letter from Mr Jacob Colclazer was read.

It contains statements that will surprise many people.

"Gentlemen: I have thought proper to lay before you a description of work that I have performed in my youthful days. I think it highly important that the people of this district should know where the commencement of steamboat building began. They will be surprised to know that it began in the District of Columbia. In the year 1805 Robert Fulton came to the District of Columbia and spent the summer of that year in the District, and while he took up his abode with the Barlow family. They were living at that time in that large house above the mill on Rock creek The mill property belonged to Mr. Rowels at that time. It was afterwards bought by Mr. John Lyons. It now belongs to Mr. Evan Lyons. While Mr. Fulton was with the Barlow family he had a small boat built to experiment with on the mill dam. He came to Georgetown to my brother's shop with some patterns to have irons made to match, and they were given to me to make, Mr. Richard Jones, who carried on the blacksmith and wheelwright business in Georgetown for many years past, was my helper at that time, and helped me to forge the irons.

The boat was finished and put on the mill dam, and Mr. Fulton experimented until he was satisfied that he had gained all the power he needed. He then went to New York and had a large boat built and made a successful trial. He afterward came to the District of Columbia with his new steamboat for all to examine, and I was one of the party myself. He stayed there a few days and then steamed down the Potomac, and that is the last I ever saw of him.

Now, gentlemen, I have given you an account of the commencement of steamboat building. The District has the honor of being the place where it was accomplished. I have always thought that the citizens of the District should know something about this matter, as it is a link in the chain of progress and science in the district. I think it is one of the brightest pages in its history. I might say more on the subject, but I will not trespass on your patience any longer at present.

With much respect, gentlemen, I remain your obedient servant,

JACOB COLCLAZER.

The Cleveland Herald of last Friday gives the following as the proceedings of the meeting of railroad directors. All the little towns and cities have come up to the mark, and some have even overdone what was asked of them, but Cleveland is yet a little ar rears. Certainly the rich men of that city will not see the proposed road stick for want of their aid. The prospect is encouraging most certainly.

A meeting of the Board of Directors of the Lake Shore and Tuscarawas Valley Railroad Company was held Thursday afternoon at the Weddell House. The members present were W. S. Streater, president; J. F. Card, Selah Chamberlain, C Russell, Thomas W. Chapman, E. G. Loomis and Thomas Moore. In the absence of the secretary, E. G. Loomis was chosen secretary pro. tem.

Reports in relation to subscriptions to the capital stock were called for, and were of a highly satisfactory and encouraging character. The reports showed that the entire amount of two hundred and fifty thousand dollars apportioned along the line was subscribed, every place having raised its full quota, and some an excess.

Cleveland alone was behind. The actual subscriptions in this city aggregate one hundred and forty thousand dollars, leaving still a deficiency of in round numbers, one hundred and fifty thousand. The Cleveland gentlemen in the Board express the full belief that the whole could be raised and asked further time, which was granted.

Mr. Chamberlain offered the following resolution which was unanimously adopted.

Resolved, That the president be and is hereby authorized to take such measures to procure the right of way, and surveys of the line, as he may deem for the best interest of the enterprise

On motion the Board adjourned subject to the call of the president.

CONVENTION OF EDITORS OF THE 17th CONGRESSIONAL DISTRICT.

Pursuant to a call made by those interested, the editors of the 17th congressional district met in convention at Alliance on Thursday, June 29th, 1871.

On motion, Mr. A. McGregor of the Stark county Democrat, was chosen as chairman, pro tem.

On motion, R. G. Mossgrove of the Columbiana Register, was chosen as secretary, pro tem.

EDITORS PRESENT.

A McGregor, Stark County Democrat; J Frost, Massillon Independent; S G McKee and J W Gillespie, Alliance Local; W K Brown, Alliance Monitor; W G Foster, Wellsville Union; T Hays, Carrollton Chronicle; R G Woods, Ohio Patriot, New Lisbon; P C Young, Buckeye State, New Lisbon; J Rukenbrod, Salem Republican; J. Hartzel, Canton Rep & Rep; J A Brush & M O McCoy, Mt Union Advance; J E Porter, New Era, Sanneville; S J, Cameron, Free Press, Carrollton; R G Mossgrove, Columbiana Register, Mrs M McC Brown, Alliance Monitor.

NOT REPRESENTED.

Steubenville Herald, Steubenville Gazette, Massillon American, Salem Journal, Liverpool Democrat, New Lisbon Journal, Minerva Commercial and Wellsville Local.

On motion of J K Rukenbrod a committee of three was appointed to draft a constitution to be presented to the convention. The chair appointed J K Rukenbrod, J Frost, and W K Brown, committee.

The following is the constitution reported by the committee, and adopted by the convention.

Constitution of the Editorial and Printing Association of Eastern Ohio:

ARTICLE.

The object of the association shall be to promote a union of interest among its members, to advance and elevate the intelligence and standard of journalism, and increase the excellence and enhance the benefits of job printing.

ART. I.

Sec. 1st. This association shall be known as the Editorial and Printing Association of Eastern Ohio.

ART. II.

Sec. 1. Its officers shall consist of a President, Vice President, Secretary and Treasurer, who shall hold their office for one year, and until their successors shall be duly elected and enter upon the discharge of their respective duties.

ART. III.

Sec. 1. It shall be the duty of the president to give notice of each annual meeting of the association, by publication of time and place, in the various papers included in the organized district, at least four weeks before the time of such meeting.

Sec. 2. The secretary shall keep a full record of the proceedings of the association, and prepare the same, so far as appropriate for publication.

Sec. 3. The treasurer shall disburse the monies on the orders of the association, and report the condition of the finances at each annual meeting.

ART. IV.

Sec. 1. The association district shall include the counties of Stark, Carroll, Jefferson, Columbiana, Mahoning, Trumbull, and Portage.

ART. V.

Sec. 1. The place for the annual meeting of the association shall be determined by ballot.

ART. VI.

Sec. 1. This constitution may be amended by a two third vote of the members of the association present at any annual meeting.

On motion of J. Hartzel a committee of three were appointed to present names for permanent officers of the organization. The chair appointed J Hartzel, T Hayes, and R G Woods, as said committee.

The committee reported the following named persons as officers of the organization for the ensuing year.

President—J K Rukenbrod, Salem Republican.

Vice President—S J Cameron, Carroll Free Press.

Secretary—S G McKee, Alliance Local.

Treasurer—W G Foster, Wellsville Union.

On motion, adjourned to meet at 8 30 o'clock, Friday morning.

FRIDAY'S PROCEEDINGS.

Convention assembled at 9 A. M. and organized by calling J. K. Rukenbrod to the chair.

The following resolution was offered and after having been thoroughly discussed by those present; who also related their various and varied experience in the publication of newspapers, and the collection of subscriptions, was unanimously adopted. The remarks elicited from the different publishers and editors present, certainly were of great value to all in their future operations, and were calculated to enable their publishers to avoid many errors and useless outlay hereafter. It will be seen that the resolution does not enjoin upon the association, *peremptorily*, the carrying out of its provisions, but merely advises that course, as the most wise and salutary, both for the publisher and subscriber, and to this end, the Association strongly and sincerely recommended its teachings. The Secretary would also recommend each publisher to continue the publication of the resolution until January 1st, so that the mind of the reader may become familiar with the principle of ready pay, and be educated to believe it righteous and correct.

Resolved, That experience has demonstrated the best interest of the publisher and subscriber, alike, demand that subscriptions be paid in advance; and this Association would therefore not only recommend, but earnestly urge that all its members who are proprietors, (who have not already done so,) adopt the pre pay system at as early a period as possible, and in no case extend the ruinous credit, pay when you get ready plan, beyond the first day of January next.

On motion the following order adopted unanimously:

Resolved, That we invite the Editorial brethren and printers of the adjoining counties of Portage, Mahoning, and Trumbull to become members of this association.

The following telegram was received from the editor of the Canton Rep. & Rep:

CANTON, O., June 30th, 1871.

S. G. McKee—Missed the train one minute. Count on me for the next meeting. JOS. HARTZELL.

Resolved, That the hearty thanks and best wishes of this Association be tendered the citizens of Alliance, for the munificient and bounteous manner in which we were received, and have been entertained while among them; with our assurance that their courtesy will never be forgotten; nor the pleasure derived from our visit to their town and its prosperous institutions and manufactories, wane in our recollection.

Resolved, That the thanks of this Association be tendered the Lyceum Society for the free use of their pleasant Hall during the present session.

Resolved, That our thanks be also tendered the Alliance Silver Cornet Band for the beautiful music to which they treated us at our various places of stopping, during the evening.

Resolved, That the next meeting of the Association be held on the first Thursday in November, 1871, at such place as may hereafter be designated.

A. McGREGOR, Chairman.
R. G. MOSSGROVE, Sec'y.

The Association offer the following propositions for the consideration of the fraternity, as proper ones to be discussed at some future meeting:

Advance pay on subscriptions.

Uniform price for advertising, especially legal advertising and printing.

Uniform price, so far as practible on that point.

Advertiseing agents—are they a benefit or injury? What is the experience on that point.

Patent medicine advertisers—how should they be charged.

Advertising in local column—should such be separated from local news items.

Cuts in papers—how should they be charged.

Best method of keeping newspaper and advertising accounts.

Runners from city *Rat* Job offices—how can a country press be protected from such swindlers.

Patent out or insides.

The apprentise system.

How can job printing be saved from being gnawed and eated to death by "Rats," generally.

The elevation, dignity and influence of the local press.

Traveling Tramps.

'Why do you drive such a pitiful looking carcass as that? Why don't you put a heavier coat of flesh on him, Pat?'

'A heavier coat of flesh on him! By the powers the poor creature can hardly carry what little there is on him now!'

ONE MILLION OF LIVES SAVED!

It is one of the remarkable facts of this remarkable age, not merely that so many persons are victims of dyspepia, or indigestion, but its willing victims. Now we would not be understood to say that any one regards dyspepsia with favor, or feels disposed to rank it among the luxuries of life. Far from it. Those who have experienced its torments would scout such an idea. All dread it, and would gladly dispense with its unpleasant familiarities. There are diseases more acute and painful, and which more frequently prove fatal; but none, the effects of which are more distressing to the body. If there is a wretched being in the world it is

A CONFIRMED DYSPEPTIC.

But it not our intention to discant on the horrors of dyspepsia. To describe them truthfully is simply an impossibility. We have said that dyspepsia is perhaps the most universal of human diseases. This is emphatically the case in the United States. Whether this general prevalence is due to the character of the food, the method of its preparation, or the hasty manner in which it is usually swallowed, is not our province to explain. The great fact with which we are called to deal is this :

DYSPEPSIA PREVAILS

almost universally.

Nearly every other person you meet is a victim, an apparently willing one; for were this not the case, why so many sufferers, when a certain, speedy and safe remedy is within the reach of all who desire to avail themselves of it? But says a dyspeptic, What is this remedy? to which we reply, This great alleviator of human suffering is almost as widely known as the English language. This acknowledged panacea is none other than

HOOFLAND'S GERMAN BITTERS.

Would you know more of the merits of this wonderful medicine than can be learned from the experience of others? Try it yourself, and when it has failed to fulfil the assurance of its efficacy given by the proprietor, then abanden faith in it.

LET IT BE REMEMBERED

first of all, that Hoofland's German Bitters is not a rum beverage.

They are not alcoholic in any sense of the term. They are composed entirely of the pure juice or vital principle of roots. The extracts from which they are compounded are prepared by one of the ablest German chemists. The objections which hold with so much force against preparations of this class, namely—that a desire for intoxicating drinks is stimulated by their use, are not valid in case of the German Bitters. Their effects can be

BENEFICIAL ONLY

in all cases of the biliary system. Hoofland's German Bitters stand without an equal, acting promptly and vigorously on the liver; they remove its torpidity and cause healthful secretion of the bile. They impart vigor and strength to the entire system, causing the patient to feel like another being—in fact, giving him a new lease of life.

THEY PURIFY THE BLOOD,

cleansing the vital fluid of all hurtful impurities and supplanting them with the elements of genuine healthfulness. In a word, there is scarcely a disease in which they cannot be safely and beneficially employed, but in the generally prevalent distressing and dreaded disease, dyspepsia,

THEY STAND UNRIVALED.

Now, there are ceriain classes of persons to whom supreme bitters are not only unpalatable, but who find it impossible to take them without positive discomfort. For such

HOOFLAND'S GERMAN TONIC

has been prepared. It is intended for use where a slight alcoholic stimulant is required. This tonic contains all the ingredients of the bitters, but so flavored as to remove the extreme bitterness.

HOOFLAND'S TONIC

acts with almost marvelous effect. It not only stimulates the flagging and wasting energies, but invigorates and permenently strengthens its action upon the liver and stomach thorough, perhaps less prompt than the Bitters, when the same quality is taken is none the less certain. Indigestion, biliousness; physical or nervous prostration, yield readily to its potent influence. It gives strength to weekness, throws dispondency to the winds, and starts the restored invalid upon a new and gladsome career. But Dr. Hoofflands benefactions to the human race are not confined to his celebrated

GERMAN BITTERS,

or his invaluable Tonic. He has prepared another medicine, which is rapidly winning its way to popular favor because of its intrinsic merits. This is

HOOFLAND'S PODOPHYLLIN PILLS

a perfect substitute for mercury, without any of mercury's evil qualities.

These wonderful pills which are intended to act upon the liver, are mainly composed of Podophyllin, or the

VITAL PRINCIPLE OF MANDRAKE ROOT.

Now we disire the reader to distinctly understand that this extract of the Mandrake is many times more powerful than the Mandrake itself. It is the medical virtues of this health giving plant in a perfectly pure and highly concentrated form. Hence it is that two of the Podophyllin pills constitue a full dose, while anywhere six to eight or a handful of other preperations of the Mandrake are required. The Podophyllin

ACTS DIRECTLY ON THE LIVER

stimulating its functions and causing it to make its bilary secretions in regular and proper quantities. The injurious results which invariably follow the use of mercury is entirely avoided by their use.

Possessing desirable qualities, the Podophyllin becomes invaluable as a

FAMILY MEDICINE

No household shou'd be without them. They are perfectly safe, require but two for an ordinary dose are prompt and efficient in action, and when used in connection with Dr. Hoofland's German Bitters, or Tonic, may be regarded as certain specifies in all cases of liver complaint dyspepsia, or any of the disorders to which the system is ordinarily subject. The

PODOPHYLLIN PILLS

act upon the stomach and bowels, carrying off improper obstructions, while the Bitters or Tonic purify the blood.

DR. HOOFLAND'S GREEK OIL.

Cures rheumatism, neuralgia toothache chilblains, sprains, burns, pain in the back, and loins, by external application.

Taken internally cures, heart burn, kidney diseases, sick headaches, colic, dysentary, cramps, cold and asthma &c. Sent by express to any locality upon application to the principal office, at the German Medicine store, No 631 Arch street, Philadelphia.

JURUBEBA

WHAT IS IT?

It is a sure and perfect remedy for all diseases of the liver and spleen, enlargement or obstruction of intestines, urinary, uterine or abdominal organs, poverty or a want of blood, intermittent or remittent fevers, inflamation of the liver, dropsy, sluggish circulation of the blood, abscesses, tumors, jaundice, scrofula, dyspepsia, ague and fevers or their concomitants.

Dr. Wells having become aware of the extraordinary medicinal properties of the south American plant, called

JURUBEBA

sent a special commission to that country to procure it in its native purity, and having found its wonderful curative properties to even excell the anticipations formed by its great reputation, has concluded to offer it to the public, and is happy to state that he has perfected arrangements for a regular monthly supply of this wonderful plant. He has spent much time in experimenting and investigating as to the most efficient preparation from it, for popular use, and has for some time used in his own practice with most happy results the effectual medicine now presented to the public as

Dr Wells' Extract of Jurubeba.

And he confidently recommends it to every family as a household remedy which should be freely taken as a blood purifier in all derangements of the system and to animate and fortify all weak and lymphatic temperaments. John Q. Kellogg, Platt st. N. Y. Sole agent for the United States. Price one dollar per bottle. Send for circular.

MILLIONS Bear Testimony to the Wonderful Curative Effects of DR. WALKER'S CALIFORNIA

VINEGAR BITTERS

J. WALKER, Proprietor. R. H. McDONALD & Co., Druggists and Gen. Ag'ts, San Francisco, Cal., and 32 and 34 Commerce St., N.Y.

Vinegar Bitters are not a vile **Fancy Drink,** Made of **Poor Rum Whiskey, Proof Spirits and Refuse Liquors** doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, **free from all Alcoholic Stimulants.** They are the **GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE,** a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these **Bitters** have been most successful. **Such Diseases are caused by Vitiated Blood,** which is generally produced by derangement of the **Digestive Organs.**

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald-Head, Sore Eyes, Erisipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores, cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE, and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

98 Fulton street.

DR. WHITTLESEY, ESQ.

Dear Sir:—Having stated it verbally to you, I have no hesitation in writing the fact, although not disposed in favor or to recommend patent medicines in general.

I do this more readily in regard to the sick headache cure prepared by Dr. Whittlesey, of Norwalk, Ohio. I have analyzed and tried it, and I recommend it as one of the best dyspepsia cures ever invented, and I feel that in recommending Whittlesey's cure I am doing at act of justice to the compounder of it, and an act of benevolence to those afflicted with dyspepsia and sick headache for which it is recommended.

Yours Respectfully,
FRANCIS RAAS, M. D.

G. P. Rowel's New Advertisements

CHEAP FARMS—CHEAP TRAVEL!

Chicago, Rock Island and Pacific Railroad Company.

600,000 *Acres Iowa choice Lands*

This company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The company sells only to actual settlers, and the prices are exceedingly reasonable, ranging from $5 to $15 per acre—the average being about $8. The greater part of these lands are situated along the line of its railroad between the cities of Des Moines and Council Bluffs, and are in the most accessible and fertile region in the state.

Sales made for cash or on credit long enough to enable any industrious man to pay for the land out of its crops.

These lands are held under a title direct from the General Government, and are not mortgaged or encumbered in any way. Full warranty deeds given to purchasers.

For maps, pamphlets, or other information respecting them, address EBENEZER COOK, land commissioner, Daveuport, Iowa.

Exploring tickets are sold at the company's offies at Chicago, and all other principal stations on its line, and if the purchaser buys land the amount paid for the ticket is applied on the purchase money.

Flint & Pere Marquette R R Cos

Lands in Michigan.

The lands of this company, located along the line of its railway, over

300,000 ACRES,

Are offered for sale! These lands include many choice tracts of Pine and other valuable timber, and also large quantities of

EXCELLENT FARMING LANDS.

The lands will be sold at fair prices and on **Easy Terms.**

This railroad is now completed to the west line of Clare county, and will probably have trains running direct from Toledo, via. East Saginaw, to Lake Michigan by the close of 1872.

TERMS OF SALE.

One fourth down in all cases and balance may be paid in three annual payments

Timber lands must be paid for before being cut.

Farming lands, for actual settlement, will be sold on payment of one fourth in cash and the balance, at buyers option, at any time in five years.

Interest, at the rate of 7 per cent on all unpaid balances, to be paid annually.

All contracts and notes made payable at the Merchants National Bank in East Saginaw.

For bargains or information concerning these lands, call on or address

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressiag which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

PRACTICAL AND ANALYTICAL CHEMISTS,
LOWELL, MASS.
PRICE $1.00.

Lee's Self Band Cutter
Attachment to Thrashing Machines.
Patented April 26, 1871.

Notice is hereby given to parties owning Thrashing Machines, or having interest therein, that the above named Band Cutter can be attached to every Thrashing Machine manufactured, whether old or new, at the cost of $35; an attachment sent to any point in the United States with full particulars how to attach, &c., by addressing

LEE, WILSON & CO.,
Du Quoin, Illinois.

What we claim and warrant is, 1st, dispensing with one man's labor from the most difficult part of the machine, and saving as above $1,50 to $2 per day. 2d, The machine cuts the bands and the feeder feeds with perfect ease, and in no danger whatever of having his hands cut, which occurs so often while feeding the machine the old way. For further particulars address

LEE, WILSON & CO.,
414-p Du Quoin, Illinois.

Vacation Notice.

Notice is hereby given of the pendency and prayer of the petition of D. P. Atwater and others, for the vacation of that part or portion of Promenade street, in the city of Massillon, Ohio, which is bordering upon and lying eastwardly of St. Timothy's Episcopal church lot or grounds in said city, and commencing where said Promenade street intersects Tremont street and running thence southwardly to the point where said street is intersected by Oak st., in said city. Action will be taken by the council of the city of Massillon upon said petition on the nineteenth day of July, A. D. 1871.

By order of the city council,
CEO. L. RUSSELL,

LOCAL MATTERS.

Yesterday was the Fourth of July here, and the town was remarkable for the perfect quiet which prevailed. In the forenoon rain fell liberally, so that comparatively few were out, but the afternoon was pleasant. The stores and other business places were closed, and scarce a cracker or torpedo was heard on the streets. It is said an unfortunate boy, perhaps from the country, let off a few crackers, and was taken to the calaboose. We hope his stay there was short. Sanderson did n't come at 6 a. m.

The quiet of this place was somewhat broken on yesterday evening by a company of fantasticals on horses, who passed along several streets with a variety of banners, blowing sundry horns which made noble discords in the air. Thousands had a rather imperfect view of the show.

If we were quiet here the people elsewhere were more demonstrative than we on yesterday. At Wooster no formal celebration was had, but large numbers gathered, principally to see Mr. Secrist start off in his balloon. He ascended successfully, and the wind wafted him, in a winding pathway, to Mr Wendling's farm a little west of this, in about forty minutes after starting—all safe.

A great gathering of people were at the fair ground, Canton, where the programme laid down was successfully carried out, even to catching the greased pig.

A picnic party of some of our citizens enjoyed themselves yesterday at the Mineral spring.

Two of our fire companies attended at Fulton yesterday, where they had speeches and other Fourth-of-July doings. They were all pleased with the agreeable time.

At Akron Massillon was also largely represented. The concourse there was estimated at 15,000 to 20,000. Mr. Greeley delivered an appropriate address on the laying of the corner stone of Buchtel College.

The Disciple dime society will meet at the residence of A. B. Cox, West Massillon, on Monday evening next. All are cordially invited to attend.

CARD.—In view of the gratifying result of the festival held on the 29th ult. the ladies of the Presbyterian church would express their grateful acknowledgments to the public, and members of the sister churches, who were present, for their kind support so liberally bestowed. Their thanks are especially due to Mr. Rod. McClymonds for the free use of the dwelling house used on the occasion.

They feel themselves under many obligations to Dr. Good, of the firm of Baltzly & Good, for the kindness and valuable services rendered; also, to Messrs. Arnold & Cross and Mr. D. D. McDonald for special favors.

The Orrville Crescent of yesterday gives some account of an accident which occurred at that place on last Wednesday. Two men named William and Henry Gettis, were in a buggy, their horse becoming unmanageable ran along the railroad . . . were overtaken by the mail train, when Henry was killed immediately and William severely but not fatally injured. The engineer tried to stop the train, but it was too late. Railroad tracks are not the right places for skittish horses, driven by fast drivers, especially when locomotives are rushing along at a rapid rate, as is said to have been the case in this instance.

It is expected that there will be services at the Episcopal church on Sabbath next, at 10½ a. m.

Jeremiah Hantz, of this place, wishes us to announce that he is a candidate for the next presidency, and that he is prepared to distinguish himself either through the press, or by public speech. Isn't he the first candidate for that office named Jeremiah? We have had George, Johns, Thomas, James, Andrews, Martin, William, Millard, Franklin, Zachariah, Abraham, Ulysses, but not a Jeremiah.

The next meeting of the national convention of spiritualists is to be held at Troy, N. Y., commencing September 12th, and continuing three days. Active state organizations are entitled to one delegate for each fifty members of such bodies.

The Alliance Local of Saturday says that a meeting of dentists from Massillon, Canton, Salem and other places was held at that place on the 26th ult. The object was to devise ways and means for elevating the profession, denouncing quacks, and unprofessional pretenders, and transact such other business as was pertinent. The gentlemen present indulged in the discussion of various topics, having organized by appointing Dr. Whitney of Salem president, and Dr. Porter of this place secretary. An organization was perfected, and other meetings will be held hereafter.

Our old friend Mr. M. Withington, many years a citizen of this place, but at present of Cleveland, has been here some days on a visit. He has rejuvenated—looks younger than he used to, and is enjoying good health.

The hotel at Alliance known as the Nixon House for many years, has recently changed its name and is now called the Arlington House. It is kept in good style by the present proprietor, and is receiving a liberal patronage from the traveling public. Liquor of all kinds is discarded, we are informed, in accordance with a recommendation to all consistent temperance men and women. One of the best hotels at Salem, the Broadway House, now kept by Mr Bunnell, late of Cleveland, has likewise discarded liquor of all kinds. Just as it should be. We hope others will follow these noteworthy examples.

MR. FROST.—Owing to the extreme haste with which I prepared the historical sketch of the newspaper press of Massillon, and which appears on the outside, some error, will be found which should be corrected. In an awkward sentence it would appear that Messrs. Keith & Miller, who were proprietors of the Massillon News, resided at White Cloud, Kansas. I intended to say that Mr. Keith resides there. Mr. Miller died in the winter of 1850, a genial gentleman and a fine scholar. He graduated in 1840 at Jefferson College, and studied law with the writer in the office of the late Hon. S. Pease. Again, I intended to say that Hon. O. Bowen had served with distinction on the supreme bench of Ohio, as well as on that of the common pleas. R. H. F.

The more one speaks of himself the less he likes to hear others spoken of.

Representatives of the press from Carrollton, Wellsville, Salineville, New Lisbon, Columbiana, Salem, Alliance, Canton and Massillon—in all numbering some fourteen or fifteen—met at Alliance on the 26th ult. The interview was a very pleasant one for all parties. We hope to have the official proceedings in this paper. The people of Alliance manifested a spirit of practical hospitality worthy the highest commendation. It was their design, which was faithfully carried out, to do everything required to make their guests welcome. Our esteemed friends brother and sister Brown and bros McKee & Gillespie, all of Alliance, were assiduous in doing all that could be required to prove their earnestness and zeal in contributing to the comfort and success of the convention. Their welcome as was that of the public spirited citizens of the place, was whole souled, and every guest, we feel assured, will accord to them a full measure of credit, not for mere words but for acts of fraternal regard. Our meeting was for business, which we hoped to dispatch on Thursday, but we were disappointed, for our kind entertainers persuaded us to take a recess after the first session, which lasted till the next morning. In this interim we had opportunity to visit the rolling mill, rake manufactory, bagging establishment, the Alliance and Mt. Union Colleges, and other places, not neglecting the very attractive and well filled tables, which were amply provided at the hotels and the homes of private citizens. If the reader has never seen a rolling mill, especially where they make rails for railroads, he will be interested in looking at the small army of Vulcans at this huge establishment at Alliance, while operating the Titanic machinery required for this business. Great masses of iron, called blooms, are put into huge crucibles where they are warmed up to a white heat. They (the blooms) are drawn from these places by huge tongs in the hands of stalwart men, placed on a strong iron carriage, hauled to the rapidly whirling rollers, run through the largest groves at first, then smaller ones until they come out perfectly shaped, but longer than necessary. Placed on a long, movable table this hot rail is pushed up to rapidly running saws, which cut off the ends, making every rail alike in length. The operations at the bag factory are carried on by machinery, with the aid of a large force of women and children, who attend to the process of carding, spinning and weaving the coarse fabric used for cotton bagging. The operations at the rake factory are not unlike much of the work done at our own agricultural establishments. The white lead works is an object of peculiar interest. Another manufacturing establishment for iron for heavy work is in process of completion, and will be in operation ere long. The railroad repair shop is a big thing for this part of the country, and gives constant employment to a large number of men. It is places of this character that make our towns and cities. Our visit to the colleges was full of interest. The Alliance College is a very fine building said to be admirably adapted to the purpose for which it was erected. It is tastefully and substantially finished, and reflects great credit on those who planned and executed the work. Just now it is out of use, but the impression prevails that it will soon be in active service. The Mt. Union College is also a well built edifice, with all the needed facilities for educational purposes. It is in a flourishing condition, has a full faculty of professors, at the head of whom is Dr. Hartshorn. A large number of students are in attendance, who receive instructions in the various branches taught in colleges. Our corps typographic were thus passed through two colleges, and although we were rapidly promoted from the primary departments to the more advanced, having graduated by ascending to the highest rooms in the buildings, it is doubtful whether we will receive any diplomas for the achievement. At Mt. Union Union—which is one of the highest points in this section—we found a vast collection of mineral specimens, a great variety of birds and animals—enough in these directions, which to study fully, would require months of time and application. Our visit to Alliance will long be remembered as one of the pleasant incidents in editorial life.

Home and Health is well occupied with salutary advice and instruction in the matter of living up to the requirements of nature, so as to insure the best results. Not quite so radical as the Herald of Health, it nevertheless imparts advice which it will be well to heed and follow. W. R. Depuy, publisher, N. Y.

A small mistake or two of omission last week, in the notice of our merchants, such as the time of closing up—July 4th—and leaving out names, gave opportunity for our brother who furnishes locals for the Rep & Rep, to indulge in one of his heaviest efforts— which is all right, and which we rise to explain.

A prominent subject for discussion the other day at Alliance in the editorial convention, was the question of prepayment on subscription. Bros. McGregor, Ruckenbrod, McKee and several others, gave their experience on this point, and the advance pay system is found to be so manifest that its advantages are manifest to all. The man who reads a paper every week which is not paid for is much like his twin brothers, the men who wear unpaid for coats and boots—they are using up the shoemakers' and tailors property without compensation. So does he who reads the printers' paper. Pay as go just as if you were going into a show.

Many of the wheat fields that are cut between here and Canton present a wholesome plenteousness of shocks. The grain is reported as full, plump, and the heads well filled. Some of the cornfields in the same vicinity are covered with rich green blades, reaching half the height of a horse. No use to howl about hard times.

Mr. A. Kittinger, who lives a little west of town, was, the other day, the fortunate possessor of a newly hatched four legged chicken. Its trotters were attached to each end of the body, the same as if it were a four footed animal, and while it lived, which was about a week, was as active in running around, using all its legs with the facility that the rest of the brood manifested in their two legs. Unfortunately it died, or Barnum might have had another wonder to add to his curiosities.

A barberian in the last American appears anxious to have shaving stopped on Sundays. That has been talked of before but never done here.

As Main street is becoming pretty well ornamented with awnings it has been suggested that the wooden sheds across the street be removed and their places taken with awnings.

The feminine minstrels on last Wednesday evening afforded a fair audience of our citizens a goodly amount of amusement. They sensibly abjured burnt cork.

The traveling powers of the celebrated Sole Leather Dick and Sandstone Tom drew a large crowd of our citizens together on last Thursday, down the Navarre road. An exciting contest was had and S. L. D. came out ahead everytime, winning for his backers a good many hundred dollars. Although much interest was evinced good order prevailed.

In some parts of the country the late rains have been accompanied with hail. A late storm of this kind visited the eastern portion of Columbiana county, which was fatally destructive on the grainfields, and cornfields over which it passed. This hail lowers the heat of the atmosphere considerably, so that on last Friday morning, the last day of June, frost was seen in numerous localities, but no damage was done by it

We were shown, yesterday, something new in the way of a patent Elastic, ever manufactured. It is the most complete and perfect article for the use of ladies and children ever invented.

From the practical working of this Elastic we fully believe it proves a sure cure to all those who suffer from colds by the use of garters, and we have no hesitation in recommending it to this cold footed generation as their best friend.

In addition to the above it will be found cheap, light, durable and easily adjusted.

It is also highly recommended by all physicians. For sale by J. L. Durgin, west side of canal Main street, Massillon, O.

The coming commencement of Mt. Union College is to take place on the 27th inst.

The children and friends of the Sunday school connected with the Episcopal church had a pleasent evenings exercise on last Sunday evening. A good many of the little ones received attractive presents in the shape of books. Mr. Arnold, the superintendent, is an industrious and indefatigable worker in this direction, and takes a deep interest in keeping up schools under his care. The absence of a preacher was manifest on the occasion referred to.

For some weeks our Episcopal friends have been without a rector, Mr. Timlow having removed to Salem, New Jersy, early in June. Next Sunday's services will be held there by a preacher who it is expected will move here if those interested are of one mind.

The Herald of Health begins the 51st volume this month. Mr. Frothingham specifies what he regards as the mistakes of temperance reformers, but suggests no great panacea to supersede these errors. Otherwise, the contests are excellent on the health question. Wood & Holbrook, publishers, N. Y.

How old is the Wooster Republican? The last number of that paper begins a new volume, which has the Roman numerals, we suppose to indicate its years, in this style, which is to say, XXXVIX. This may signify 35-9 or 36-10. The problem is, how old is the Republican when counted by Arabic figures? It seems a little hazardous for some to attempt to count Roman fashion unless he who uses the characters is posted on a few very simple rules, which may be found in our school books. We once knew of a man who used the Roman figuring to tally the number of the paper he printed, and he often made wild work. He once had XLIX, which being translated into English was forty-eleven, or in Arabics 40-11. Of course there is an error—too much X.

A GIFTED SONGSTRESS.—Miss clara Ickes, who sang with so much success at the concert, was again requested to sing one of her beautiful selections. She gave Concone's song "Judith" with so much real expression, that the audience would have requested an encore, had it not been want of time. We understand that the young lady was on a visit to Mrs. Beuter, and was by her requested to sing a few songs. We are glad to notice that this community appreciate true merit and talent wherever it is found. It argues well for the musical taste of Beaver and vicinity.—*Beaver Argus.*

A SINGULAR CONTRAST.

There is a great many good people, says the State Journal, perplexed at the attitude of the Democratic party in relation to the results of the war. "How can they endorse the Fifteenth Amendment?" asks a plain citizen, 'particularly after they have so bitterly opposed it;' 'and,' inquires still another 'how can the democracy have the cheek to ask the black man to vote their ticket, when the whole course of that party has been one persecution of the freedmen?' This can be easily done particularly by the democratic leaders; and to show how they can do it, we will state a historical fact by way of comparing their conduct with that of the rebels when they reached the end of their career of shame just as the democracy are now doing. The Union soldiers will remember that on several occasions during the campaign in Virginia, they were deceived by what they supposed were union troops, seeing that they were men in the uniform of the federal army they suffered them to approach near enough to be fired upon in the most destructive manner. After our boys had been thus slaughtered, it was discovered, what were supposed to be Union soldiers were rebels in disguise who had stolen the uniform of dead Federal soldiers, and in that garb had managed to get close enough without running any risks. The same spirit now animates the democracy. They are, like their rebel friends, at the end of their string. Their cause is hopelessly gone—they have no hope of success on their old platform—they have forfeited the confidence of the people as Democrats, and they therefore seek a disguise behind the republican principles, hoping as did the rebels to get near enough to the Union lines as to do some damage as a matter of revenge, knowing, as they do, they can not win a clear victory. Hence when ever you hear a democrat endorsing the Fifteenth Amendment, put him down as a rebel fighting in the stolen uniform of a dead union soldier.

Prof. Beuter, the successful instructor of music in the Beaver Seminary, is now enjoying a vacation here, on a visit with his family. The institution with which he is connected is making satisfactory advancement in imparting the different branches of knowledge there taught.

The Fourth put us back a little.

Reported for the Independent.

COUNCIL PROCEEDINGS.

Wednesday Ev'g, June 28, 1871.

Regular Session—C. L. Russell presiding. Roll Call—Members present, Messrs. Russell Kirkland, Mong, Ruehli and Crone.

Minutes read and approved.

The Street Commissioner submitted his regular report for work done on streets and alleys for the week ending June 24th, to be $73,75; and total amount of poll tax performed to date to be $114,50.

Dr. T. J. Reed, chairman of the board of health submitted the following:

To the President and City Council,

Gentlemen:—I would respectfully call your attention to the sanitary condition of Plum and Center streets, and would recommend that some immediate means be taken to drain the same, as the health of that part of the city will soon be materially affected by their present condition.

Mr. Crone moved that the communication be placed on file. Motion prevailed.

An order on Mr. Hewes in favor of Edward Reese for $87 was presented and on motion was accepted.

The following bills were received and accepted;

Clement Russell, for 450 loads of earth placed on Factory street, $45.

Martin Schafer, for enrolling persons subject to road tax in 2d ward, $8.

Clay & Ogden, one quarters hose house rent, $15.

John Shepley assisting city engineer $18.

There being no further business the council adjourned.

Justice of the Peace.

To the Voters of Perry Township:

WARREN C. RICHARDS, of Perry township, announces himself as a candidate for the office of Justice of the Peace, subject to the republican nomination.

Economy.—Save your doctor's bill and a serious attack of illness by taking a few doses of Dr. Henry's Root and Plant Pills. See advertisement. 418 4 w

You know yourself how it is—Shoemaker is cast buying goods which will be here and opened in a few days.

I. B. Dangler.

The best and largest assortment of HATS and CAPS, you can find at N. Minich's, and 10 per cent lower in price than any other establishment west of New York,

Now is the time to save money by buying your blankets and woolens at Humberger & Son's.

7-30 GOLD LOAN

OF THE

Northern Pacific Railroad.

Rapid Progress of the Work.

The building of the Northern Pacific Railroad, (begun July last), is being pushed forward with great energy from both extremities of the line. Several thousand men are at work in Minnesota and on the Pacific coast. The grade is nearly completed 2[illegible] miles westward from Lake Superior; trains are running over 130 miles of finished road, and track laying is rapidly progressing toward the eastern border of Dakota. Including its purchase of the St. Paul & Pacific road, the Northern Pacific Company now has 413 miles of completed road, and by September next this will be increased to at least 550.

A Good Investment.—Jay Cooke & Co., are now selling, and unhesitatingly recommend, as a profitable and perfectly safe investment, the first mortgage land grant gold bonds of the Northern Pacific Railroad company. They have 30 years to run, bear seven and three tenths per cent gold interest (more than 8 per cent currency) and are secured by first and only mortgage on the entire road and its equipments, and also as fast as the road is completed on

23,000 Acres of Land to every mile of track, or 500 acres for each $1000 bond. They are exempt from U. S. tax; principal and interest are payable in gold; Denominations: Coupons, $100 to $1000; Registered, $100 to $5000.

Lands for Bonds.—Northern Pacific 7 30's are at all times receivable at ten per cent above par, in exchange for company's lands, at their lowest cash price. This renders them practically interest bearing land warrants.

Sinking Fund.—The proceeds of all sales of lands are required to be devoted to the re-purchase and cancellation of the first mortgage bonds of the company. The land grant of the road exceeds fifty million acres. This immense sinking fund will undoubtedly cancel the principal of the company's bonded debt before it falls due. With their ample security and high rate of interest, there is no investment accessible to the people, which is more profitable or safe.

Exchanging U S Five-Twenties.—The success of the new government five per cent loan will compel the early surrender of the 6 per cents. Many holders of five twenties are now exchanging them for Northern Pacific Seven-Thirties, thus realizing a handsome profit, and greatly increasing their yearly income.

Other Securities.—All marketable stocks and bonds will be received at their highest current price in exchange for Northern Pacific seven-thirties. Express charges on money or bonds received, and on seven-thirties sent in return, will be paid by the financial agents. Full information, maps, pamphlets, etc., can be obtained on application at any agency, or from the undersigned.

State Senator.

STATE SENATOR.—Arvine C. Wales having served half a term as Senator for the Twenty-first District composed of the counties of Stark and Carroll, will be a candidate for re-election, subject to the decision of the republican primary elections.

Representatives.

Samual C. Bowman will be a candidate for renomination as representative, subject to the Republican primary election.

E. N. Johnson will be a candidate for renomination as representative; subject to the Republican primary election.

Common Pleas Judge.

Hon. JOSEPH FRIAUF, of Canton, having served acceptably one term as Common Pleas Judge, of the first sub division of the 9th judicial district, composed of the counties of Stark, Columbiana and Carroll, is a candidate for re-election. PERRY.

EDITOR INDEPENDENT—Announce JOHN H. TRIPP, Esq. as a candidate for common pleas judge, subject to the decision of the republican voters of this district. *No man* has ever been re-elected after serving a term of five years? Shall the rule vary? 48 delegates are already instructed for him.

STARK & CARROLL.

Clerk of Court.

Please announce the name of WM. ANDERSON as a candidate for Clerk of Court, subject to the decision of the republican party, as expressed at their primary election

Please announce the name of EDWIN W. PAGE as candidate for the office of clerk of court of common pleas of Stark county, subject to the decision of the republican election.

Auditor.

EDWIN A. LEE,

—FOR—

COUNTY AUDITOR.

ED. INDEPENDENT.—Please announce the name of A. S. DULEY, of Perry tp. as a candidate for Auditor of Stark county, subject to the decision of the republican primary election.

ED. INDEPENDENT—Please announce the name of JOHN N. RAMSEY, of Lexington tp. as a candidate for auditor of Stark county, subject to the decision of the republican meeting.

We are authorized to announce the name of Col. JAMES E. DAUGHERTY, of Greentown, Lake township, as candidate for auditor, subject to the primary republican nominations.

Treasurer.

IRA M. ALLEN is candidate for re-election to the office of county treasurer, subject to the decision of the republican primary election.

Sheriff.

PUBLIC CALL.—We, the undersigned citizens of Pike township, feel that in the past we have not had a just proportion of the county officers, and therefore propose the name of ELI MILLER as candidate for sheriff subject to the decision of the republican primary election.

Please announce ENOS RAFFENSPERGER, of Bethlehem township, as candidate for sheriff, subject to the decision of the republican primary election.

ED. INDEPENDENT—Please announce the name of WILLIAM HOLLIDAY, of Sugar Creek township as a candidate for sheriff of Stark county, subject to the decision of the republican primary meeting, and you will oblige many voters of Stark county.

Commissioner.

Cyrus Zollars will be a candidate for county commissioner, subject to the decision of the Republican primary election.

A Chapter of Facts.

Space is valuable in a newspaper, and it is therefore proposed in this advertisement to condense a variety of facts, important to the public, into a small compass. Those facts refer to Hostetter's Stomach Bitters—what that celebrated medicines is, and what it will do. In the first place, then, the article is a stimulant, tonic and alterative, consisting of a combination of an absolutely pure spirituous agent with the most valuable medicinal vegetable substances that Botanic research has placed at the disposal of the chemist and the physician. These ingredients are compounded with great care, and in such proportions as to produce a preparation which invigorates without exciting the general system, and tones, regulates and controls the stomach, the bowels, the liver, and the minor secretive organs.

What this great restorative will do must be gathered from what it has done. The case of dyspepsia, or any other form of indigestion, in which it has been persistently administered without effecting a radical cure, is yet to be heard from, and the same may be said of bilious disorders, intermittent fever, nervous affections, general debility, constipation, sick headache, mental disabilities to which the feeble are so subject. It purifies all the fluids of the body, including the blood, and the gentle stimulous which it imparts to the nervous system is not succeeded by the slightest reaction. This is a chapter of facts which readers, for their own sakes, should mark and remember

Henry T. Helmbold's

COMPOUND FLUID

Extract Catawba

GRAPE PILLS.

Component Parts—Fluid Extract Rhubarb and Fluid Extract Catawba Grape Juice.

For Liver Complaints, Jaundice, Bilious Affections, Sick or Nervous Headache, Costiveness, etc. Purely vegetable containing no Mercury, Minerals or Deleterious drugs.

H

These pills are the most delightfully pleasant purgative, superseding castor oil, salts, magnetia, etc. There is nothing more acceptable to the stomach. They give tone and cause neither nausea nor griping pains. They are composed of the finest ingredients. After a few day's use of them, such an invigoration of the entire system takes place as to appear miraculous to the weak and enervated, whether arising from imprudence or disease. H. T. Helmbold's Compound Fluid Extract Catawba Grape Pills are not sugar coated, from the fact that sugar coated pills do not dissolve, but pass through the stomach without dissolving, consequently do not produce the desired effect. The Catawaba Grape Pills, being pleasant in taste and odor, do not necessitate their being sugar coated, Price 50 cents per box.

E

Henry T. Helmbold's

Highly Concentrated Compound

Fluid Extract Sarsaparilla

Will radically exterminate from the system scrofula, syphilis, fever sores, ulcers sore eyes sore legs, sore mouth, sore head, bronchitis, skin diseases, salt rheum, cankers, runnings from the ear, white swellings tumors, cancerous affections, nodes, rickets, glandular swellings, night sweats, rash, dyspepsia, and all diseases that have been contaglished in the system for years.

L

Being prepared expressly for the above complaints, its blood purifying propensities are greater than any other preparation of Sarsaparilla. It gives the complection a clear and healthy color, and restores the patient to a state of health and purity. And is the only reliable remedy for the cure of pains and swellings of the bones, ulcerations of the throat and legs, blotches, pimples, erysipelas and all scaly eruptions of the skin, and beautifying the complexion. Price $1,50 per bottle.

M

Henry T. Helmbold's

CONCENTRATED

Fluid Extract Buchu,

The Great Diuretic, has cured every case of diabetes in which it has been given. Irritation of the neck of the bladder, and inflammation of the kidneys, ulceration of the kidneys and bladder, retention of the urine, gravel, milky discharges, and for enfeebled and delicate constitutions of both sexes, attended with loss of memory, indisposition, weak nerves, trembling, pain in the back, hot hands, dryness of the skin, and a host of other symptoms. Used by persons from the ages of eighteen to twenty-five, and from thirty-five to fifty-five, or in the decline or change of life; after confinement or labor pains; bed wetting in children.

B

Helmbold's Extract Buchu is Diuretic and blood purifying, and cures disenses arising from dissipation, excess and imprudences in life, impurities of the blood, etc., supersedes copaiby in affections in which it is used, and syphilic affections—in these affections used in connection with Helmbold's rose wash.

Ladies, In many affections peculiar to ladies, the buchu is unequaled by any other remedy—as in chlorosis, irregularity, ulcerated state of the uterus, leucorrhœa or whites sterility, and for all complaints incident to the sex, whether arising from indiscretion or dissipation. It is prescribed by physicians and midwives for the enfeebled and delicate constitutions of both sexes, and all ages.

O

H. T. HELMBOLD'S EXTRACT BUCHU cures diseases arising from imprudences habits of dissipation etc, in all their stages, at little expense, little or no change in diet, no inconvenience, and no exposure. It causes a frequent desire, and gives strength to urinate, thereby removing obstructions, preventing and curing strictures of the urethra, so frequent in this class of diseases.

Use Helmbold's Extract Buchu for all affections and diseases of the urinary organs, whether existing in male or female, from whatever cause originating and no matter of how long standing. Price $1,50 cents per bottle.

L

HELMBOLD'S IMPROVED ROSE WASH cannot be surpassed as a face wash, and will be found the only specific remedy in every species of cutaneous affection. It speedily eradicates pimples, spots, indurations of the cutaneous membrane, etc., dispels redness and incipient inflammation, hives, rash, moth patches, dryness of the scalp or skin, frost bites, and all purposes for which salves and ointments are used. It is an excellent lotion for diseases of a syphilitic nature, and as an injection for diseases of the urinary organs, arising from habits of dissipation, used in connection with the extracts Buchu, Sarsaparilla, and Catawaba Grape Pills, in such diseases as recommended cannot be surpassed. Price $1 per bottle.

D

Full and explicit directions accompanying the medicines. Evidence of the most responsible and reliable character furnished on application, with numbers of thousands of living witnesses, and upward of 10,000 unsolicited certificates and recommendatory letters, many of which are from the highest sources, including eminent physicians, clergymen, statesmen, etc. The proprietor has never resorted to their publication in the newspapers; he does not do this from the fact that his articles rank as standard preparations, and do not need to be propped up by certificates.

H. T. Helmbold's Genuine Preparations.

Delivered to any address. Secure from observation. Established upward of twenty years. Sold by druggists everywhere. Address letters for information in confidence to Henry T. Helmbold, Druggist and Chemist.

Only depots: H. M. Helmbold's Drug and Chemical Warehouse, No. 594 Broadway, N. Y. and to H. T. Helmbold's Medical depot, 104, South Tenth st. Philadelphia, Pa.

Beware of counterfeits! Ask for Henry T. Helmbold's. Take no other. 85-1y

NEWSPAPERARCHIVE®

NEWSPAPERARCHIVE®

An ardent young man in Freehold, N. J., was fined $20 for kissing a lady without her consen. That chap didn't have a free hold.

The generality of men expend the early part of their lives in contributing to render the latter part mi-erable.

The latest parlor game—settina up. It takes two to play it.

Nature gives a crumb of comfort to each and every one—such as have not blasted hopes have blasted headaches.

An hour's industry will do more to produce cheerfulness, suppress evil humors, and retrieve your affairs, than a month's moaning.

A contemporary ungallantly makes the observation that the leading champions of woman's rights are generally found to be man's lefts.

Frugality may be termed the daughter of prudence, the sister of temperance, and the parent of liberty. He that is extravagant will quickly become poor, nd poverty will enforce dependence, ind invite corruption.

'Havn't I a right to be saucy if I please?' asked a young lady of an old bacheler. 'Yes, if you please, not if you displease,' was the reply.

Sympathy is a balm to the tortured hea t—it is a jewel beyond compare—a flower dropped from the garden of heaven.

Every created thing glorifies God in its place, by fulfilling His will, and the great purpose of His providence; but man alone can give tongue to every creature, and pronounce for a a l general doxology.

As bees breed no poison, though they extract the deadliest juices, so the noble mind, though forced to drink the cup of misery, can yield but generous thoughts and noble deeds.

When may a man be said to be really over head and ears in debt? When he hasn't paid for his whig.

Why is a young man reclining on the bosom of his wife like a fellow in dulging in a spree? Because he is on a bust.

An exchange says tersely of a noted Texan ruffian, that through the energy of a sheriff he now ornaments a rustic graveyard.

Oil of sassafias, it has been discovered, will entirely neutralize the narcotic effects of tobacco, and it is believed will prove an excellent and efficacious remedy against the bite of rattlesnakes. Oil of sassafras, it is stated, has long been used to prevent the fermentation of mucilage and inks.

An Irishman, who was standing on London bridge, accosted a youth standing beside him, saying:

'Faith, and I think I know yees; what's yer name?'

'My name is Jones, replied the youth.

'Jones, Jones,' said the Irisman, 'and I knew two ould maids by that name in Dublin, was aither of them yer mither?'

'Fanny, don't you think that Mr. Bond is a handsome man?'

'Oh, no—I can't endure him. He is homely enough.'

'Well, he's fortunate, at all events; an old aunt has just died, and left him fifty thousand dollars.'

'Indeed! is it true? Well, now I come to recollect, there is a certain noble air about him, and he has a fine eye—that can't be denied.'

A poor young man fell in love with an heiress, and the passion being returned, it only wanted the parents' consent to make them happy. At length he asked the father for the daughter's hand. 'How much money can you command?' asked the millionaire very gruffly. 'I cannot command much,' was the reply. 'What are your expectations?' 'Well, to tell the truth, I expect to run away with your daughter if you don't give you consent.'

A countryman strolling through New London recently, hand-in hand with his rural Phillis, impatient to visit the circus, exclaimed upon seeing a bunch of bananas suspended in front of one of the fruit stores, 'I'll be mowed if them aint the biggest beans I ever see, Soprony!'

That was a clever and original lecturer who explained to a village audience the meaning of the word phenomenon. 'Maybe you don't know what a phenomenon is. Well I will tell you. You have seen a cow, no doubt. Well a cow is not a phenomenon. You have seen an apple tree. Well an apple tree is not a phenomenon. But when you see the cow go up the tree tail foremost to pick the apples that is a phenomenon.'

Some men make a great flourish about about always doing what they believe to be right, but always manage to believe that is right which is for their own interest.

A Massachusetts man who telegraphed to New Bedford for a box of pressed cigars and received a box of pressed codfish, is astonished at the mistakes these telegraph men do make.

A resident of Taunton, Mass, has obtained his ice for summer use for several winters in the following manner: Procuring about 50 empty barrels at a cost of 20 cents each, he gradually pours in water until each contains a solid mass of ice. The barrels are then put away in his cellar, and entirely covered with sawdust. As ice water is required, a barrel is tapped.

May, 2d, 1871—tf

Dr. J. LONG,

Eclectic Physician,

Has located himself at Massillon, O., for the treatment of

Female & Chronic Diseases.

Office east of the Park, second door of Mr. Falke's new building.
All consultations and examinations of patients made free of charge.

Dr. Long examines and explains your disease without asking any questions. If he understands your case you know it, and cannot be deceived. If he cannot tell your disease, and how you feel without asking questions he does not consider himself competent to treat your case. This is the criterion to go by, and patients should not be satisfied with any other. This is the only direct and positive evidence of my ability as a scientific physician, and by this standard I am willing to be judged.

A proper diagnosis of local disease, without constitutional symptoms, that is, not affecting the system generally, must depend upon the judgement of both patient and physician.

Give Dr. Long a call, and satisfy yourselves whether he understands your cases sufficiently well to treat them successfully.

Dr. Long may be consulted in the German and English languages. Address letters,
JAMES LONG, M. D.,
371-1y Massillon, Ohio.

MONEY CANNOT BUY IT!
For Sight is Priceless.

The Diamond Glasses,

Manufactured by

E. E. Spencer & Co., N. Y.,

Which are now offered to the public, are pronounced by all the celebrated Opticians of the World to be the **Most Perfect.** Natural, Artificial help to the human eye ever known.

They are ground under their own supervision, from minute Crystal Pebbles, melted together, and derive their name, 'Diamond,' on account of their hardness and brilliancy.

THE SCIENTIFIC PRINCIPLE on which they are constructed brings the core or center of the lens directly in front of the eye, producing a clear and distinct vision, as in the natural, healthy sight, and preventing all unpleasant sensations, such as glimmering and wavering of sight, dizziness, &c., peculiar to all others in use.

They are Mounted in the Finest Manner in frames of the best quality, of all materials used for that purpose.

Their Finish and Durability cannot be surpassed.

CAUTION.—None genuine unless bearing their trade mark ⇔ stamped on every frame. JOSEPH COLEMAN,
Jeweler and Optician, sole agent for Massillon, Ohio,
From whom they can, only, be obtained. hese goods are not supplied to peddlers at y price. 378–1y

TIME.

Go to COLEMAN'S and get the correc time, and look over his splendid stock o Gold and Silver Watches, Diamonds, and Rich Jewelry, Fancy Goods, &c.

Manhood; how Lost, how Restored.

Just published, a new edition of Dr. CULVERWELL'S Celebrated Essay on the radical cure, without medicine, of Spermatorrhœa, or Seminal weakness, involuntary Seminal Losses, Impotency, Mental and Physical Incapacity, Impediments to Marriage, etc.: also, Consumption, Epilepsy and Fits, induced by self indulgence or sexual extravagance.

Price in a sealed envelope only six cents.

The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice that the alarming consequences of self abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This lecture should be in the hands of every youth and every man in the land.

Sent under seal, in a plain envelope, to any address, postpaid on receipt of six cents or two post stamps.

Also, Dr. Culverwell's "marriage Guide," price 25 cents.

Address the publishers, CHAS. J. C. KLINE & CO., 127 Bowery street New York. P. O. Box 4,586. 371-1y

DR. WHITTIER

Continues to treat all private diseases, syphillis in all its forms, gonorrhœa, gleet, stricture, orchitis, and all urinary diseases, and the effects of mercury are completely eradicated; spermatorrhea or seminal weakness and impotency, resulting from self abuse or other causes, and which produce some of the following effects, as blotches, bodily weakness, indigestion, consumption, aversion to society, unmanliness, dread of future events, loss of memory, indolence, nocturnal emissions, and finally so prostrating the sexual system as to render marriage unsatisfactory, and therefore imprudent, are permanently cured.

It is self evident that the physician who confines himself exclusively to the study of a certain class of diseases and, treats thousands of cases every year must acquire a greater skill in that speciality than one in general practice.

The establishment, comprising ten ample rooms, is central. When it is not convenient to visit the city, the doctor's opinion can be obtained by giving a written statement of the case, and medicines can be sent by mail or express.

The doctor publishes a medical pamphlet of fifty pages that gives a full exposition of venereal and private diseases that can be had free at office or by mail, in sealed envelope, for two stamps. Every sentence contains instruction to the afflicted, and enabling them to determine the precise nature of their complaints.

Hours 9 a. m to 8 p. m. Sundays 12 m, to 2 p. m. Office, No. 296 Penn street, Pittsburg, Pa. 365-1y
